## Our Team

- **Dr. Binbin Ying** – Principal Investigator  
*Research: Soft bioelectronics, mucosa-interfacing systems...*
- **Marc Ying** – Junior Scientist  
*Focus: Triathlon-powered robotics and pizza-fueled innovation.*

## About Ying Lab

We are a research group developing soft, mucosa-interfacing medical devices.

Our current projects include:

- e-GLUE hydrogel interface
- PowerPill-X wireless power
- Smart biosensing capsules
